

AUTO PARTS ERP · AI AGENTS · MARKETPLACE

The operating system for Korean auto parts distribution.

Three layers — ERP, AI agents, marketplace — on one data model. Live with 3 customers.

Layer 1 · ERP Foundation

Inventory, orders, customers, settlement. Live with 알레스아우토, 포탈오토파트스, 오토테크.

Layer 2 · AI Agents

Quote, inventory, customer, settlement. KakaoTalk Vision capture. Q3 2026 target.

Layer 3 · Marketplace

National B2B network.
Roadmap, Q4 2026 target.

3

Live L1 customers

10,000+

SKUs / distributor (target)

300–400

Korean distributors (market)

HOW IT WORKS

01

Connect

Onboard ERP foundation in 4–6 weeks. Inventory, orders, customers in one place.

02

Automate

AI agents handle quotes, stock lookups, customer comms — KakaoTalk-native.

03

Network

B2B marketplace links distributors nationwide on one data model.
